Project Description

The MBCI Tribal Council Hall, located at 101 Industrial Rd on the Pearl River Reservation at Choctaw, MS, houses meeting space for the Tribal Council as well as the offices for the Tribal Enrollment staff and the Tribal Election Committee. The Tribal Council Hall, was constructed adjacent to, and connected to, the Tribal Office Building. The single-story building has a 10,800 Square Foot Meeting Hall, a covered patio, and an office complex consisting of office spaces, conference rooms, and attendant spaces. Construction took place while the Tribal Office Building was occupied and sidewalks for the Hall had to tie in with existing sidewalks.

IKBI coordinated with Singleton Architects to ensure the exteriors of both buildings were similar in style of structure, brickwork and landscaping. The building has Metal columns, beams, and framework, with some wood trusses integrated. Interior work included cabinets and counters, casings and doors, all trim work, wood, carpet, and ceramic flooring. Electrical work ranged from site/slab rough-in to completed/installed light fixtures. IKBI was responsible all Fire extinguishers and alarms, security measures such as metal detectors, access control and security cameras, and the Council Hall seating.
